

TelcoEasyWriter™ - 1ClickConnect™ - 1ClickConnect™ Plus

Sales Force Multiplier Sales Cycle Minimizer

XINTEX TelcoEasyWriter™ 1ClickConnect™ and 1ClickConnect™ Plus provide the most useful automation possible at the start of the Telco Supply Chain - the sales cycle. With its powerful web based **Guided Sell** technology coupled with XINTEX's unique CSR processing capabilities, XINTEX enables a variety of benefits:

- Compresses proposal and order preparation time into minutes;
- Deployed by a VoIP provider or LEC or ESN as an in-house operations tool, as a tool for Integrated Communications Providers, Master Agents, or as a tool for Independent Agents;
- On Demand and Highly scalable;
- Quick implementation - Service Bureau usage model or on-site installation;
- Cost effective - eliminates upfront investment in equipment, software, installation and maintenance; and
- ROI that routinely occurs within the first 4 months of use

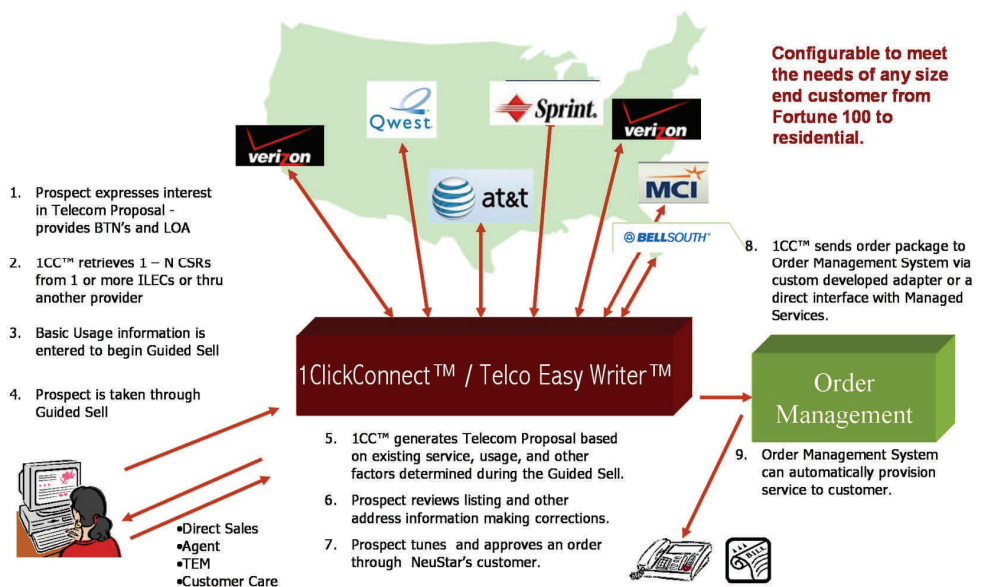

XINTEX software is technology neutral and platform independent. All SQL enabled databases are supported. TelcoEasyWriter™ scales from small operating environments to large, high volume, complex enterprise environments running Unix, Linux, or Windows. A web enabled set of GUI's as well as an XML, CORBA, or file based set of synchronous and asynchronous API's are included.

XINTEX provides innovative and effective solutions for the Telecommunications Industry.

Order Cycle Automation with XINTEX 1ClickConnect™ TelcoEasyWriter™

XINTEX TelcoEasy-Writer™

XINTEX TelcoEasyWriter™ is a comprehensive, secure and scalable solutions supporting all types of Carriers, LECs, VoIP Providers, VoIP Resellers, Master Agents, Independent Sales Agents, ICP's, Resellers and other 3rd party solutions providers. 95% of all service-delivery-supply-chain functions, from the automated-proposal at the point-of-sale to an order ready for provisioning can be fully managed by 1ClickConnect™.

1ClickConnect™

TelcoEasyWriter™ 1ClickConnect™ provides the most useful automation possible at the very start of the Telco Supply chain – the sales cycle. With its powerful web based Guided Sell and XINTEX's powerful and unique CSR processing capabilities, 1ClickConnect™ enables a variety of benefits:

- Sales Executives can complete a proposal with multiple alternatives in minutes instead of hours or days by leveraging the powerful 1ClickConnect™ web based **Guided Sell** technology coupled with XINTEX's unique CSR processing capabilities;
- Customers can self-service their accounts performing service and feature changes as well as re-loading pre-paid service packages;
- The CSR is accessed in real time and parsed into detailed components providing USOCs and FIDs with basic usage and non-recurring costs while identifying issues that delay orders (e.g. hunting, DSL, CENTREX etc.);
- A complete error free order is printed or interfaced into the existing order management system.

1ClickConnect™ Plus

TelcoEasyWriter™ 1ClickConnect™ Plus includes all of the components of 1ClickConnect™ and is enhanced for Integrated Communication Providers, Master Agents and Independent Agents working with many carriers. Designed specifically for working with multiple CLECs, VoIP Providers, and other service providers, **1ClickConnect™ Plus** enables multiple quotes for a customer and allows for creating the best solution for a customer from various providers. 1ClickConnect™ Plus is an indispensable tool for ICPs and Master Agents:

- Generates proposals that compare solutions from different carriers or providers – this can include pricing to the end users, pricing to the agent, special programs, unique incentives;
- A single proposal can generate several orders to separate carriers/providers thereby creating a best of breed solution;
- Sales close ratios improve by providing unique “blended” solutions reducing churn by building a one-stop-shop capability that enhances customer loyalty;
- Highlights the uniqueness and flexibility you've strived to create for you and your customers.
